

# Top WalkMe Alternatives at a Glance

**Featured in the blog post:** Top WalkMe Competitors in 2026 and How to Choose the Right One

Tool	Category	Primary Use Case	Best For	Key Consideration
ClickLearn	Enterprise adoption platform	Automated documentation and in-app training for enterprise software	Organizations rolling out ERP, CRM, or large internal systems	Less focus on UI overlays, stronger focus on training and documentation
WalkMe	Enterprise DAP	In-app guidance for complex systems	Large enterprises with long rollout cycles	High cost and heavy implementation
Whatfix	Enterprise DAP	Guided workflows and analytics	Enterprises with dedicated adoption teams	Set up effort and pricing
Userlane	Enterprise DAP	Employee onboarding and enablement	Structured internal training programs	Less flexibility for rapid changes
Apty	Enterprise DAP	ERP and process adoption	Regulated and process-heavy orgs	Steeper learning curve
Userpilot	Product onboarding	Feature adoption in SaaS	Product-led growth teams	Not built for internal systems
Pendo	Product experience	Analytics with onboarding	Data-driven product teams	Cost increases at scale
Appcues	Product onboarding	UI-based onboarding flows	Fast-moving SaaS teams	Limited depth for enterprise training
Supademo	Demo tool	Interactive product demos	Sales and marketing teams	Not a full adoption platform
Guidde	Documentation tool	Video-based how-to content	Training and enablement teams	No in-app guidance layer
